

**Online Textbooks**

As part of the *KCC Online Program*, the Online Office orders the students books for each course. This insures that the student has the correct book, on time, for the start of each class. A book fee is added to the student financial account for each class based upon the average cost of books across the entire term (including taxes, shipping, and handling fees). While new textbooks are often available, oftentimes used books are required to be purchased due to availability and/or cost.
